Code: 150206-0041

The superior quality of LED lighting is now more affordable and accessible thanks to a benchmarking product that offers, at contained costs, the ideal light for offices, shopping centres, hotels and healthcare facilities and in general all spaces where continuous lighting is necessary.

continuous lighting is necessary. It is the best and easiest way to get one of today's most advanced technology in interior lighting solutions. The presence of a LED source is not always synonym with excellent performance. The long service life and optimal light output of a lighting system also depends on the use of top-notch materials that are tested, controlled and selected with care to maintain lighting and aesthetic quality over time: lumen maintenance, perfect colour rendering, no glare and anti-yellowing of components.

A special slab fitted between the LED source and the diffuser is responsible for the operation, quality and amount of light emitted from the light panel. This slab is made in PMMA (polymethyl methacrylate), a polymer that keeps its characteristics unaltered and prevents the lens from yellowing. Other similar fixtures use materials such as, for example, polystyrene (PS), which do not have the same properties and polystyrene (PS), which do not have the same properties and characteristics, and are therefore available at much lower costs. The result? Unlike the PMMA, the slab in PS becomes yellow after 6000-8000 hours of operation, decreasing both the amount and the quality of the light emitted, even during the day, when the fixture is switched off, as well as compromising the perfect integration of the white panel into the false ceiling, affecting the overall appearance of the installation. Thanks to this slab in PMMA our panels are fully heading the participant PMMA, our panels can fully benefit from the lighting advantages ensured by the most advanced LED sources and keep them unaltered in time: lumen maintenance at 80% for 50000 hours (L80B20), perfect colour rendering index (CRI280 or CRI<90), no glare (UGR<19) and certified low flickering level.

	GENERAL INFORMATION
Article	842 - LED Panel R - UGR<19 - CRI≥80
Code	150206-0041
	DIMENSIONS AND WEIGHT
Length (mm)	1195 mm
Width (mm)	295 mm
Height (mm)	12 mm
Weight (Kg)	3.465 kg
	INSTALLATION
Recessed dimensions - Length (mm)	1190 mm
Recessed dimensions - Width (mm)	290 mm
	ELECTRICAL CHARACTERISTICS AND CONTROLS
Voltage (V)	230 V
Frequency (Hz)	50 Hz
Wiring	CLD-D-D
Control interface	DALI
Power factor	≥0.95
Insulation class	Class II
Controllability	Yes (External control)

Please contact the Consulting and Design Centre for any technical information. The reported luminous flux is the flux emitted by the light source with a tolerance of ± 10% compared to the indicated value. The total wattage absorbed by the system will not exceed 10% of the reported value. Technical lighting data may be subject to changes and improvements due to the fast evolution of the technology. Saturday, August 12, 2023

Code: 150206-0041

	PHOTOMETRIC DATA
Lighting source	LED
CRI	≥80
Luminous flux (output) (lm)	3600 lm
Power absorption (total) (W)	33 W
ССТ	4000 K
Luminous efficacy (lm/W)	109 lm/W
Unified glare rating UGR (EN 12464-1) (Reflectance coefficient: ceiling 0.7 - walls 0.5)	UGR<19 (in any situation). According to standard EN 12464.
Low Flicker	luminaire with very low flicker: evenly distributed light for greater visual safety.
Colour consistency	SDCM3
LED flux maintenance	50000 hr, L 80, B 20
	MECHANICAL CHARACTERISTICS
Impact resistance rating (IK)	IK06
IP (vl)	43
IP (va)	20

	MATERIALS AND COLOURS
Housing	body in steel sheet and frame in aluminium.
Diffuser	in high transmittance prismatic technopolymer. Internal PMMA slab.
Colour	White
Equipment	Ceiling lighting fixture with external driver; it can be easily housed in false ceilings.
	STANDARDS AND COMPLIANCE
Photobiological safety class	RG0
Markings and tests	CE, ENEC
Reference standards	EN60598-1. With degree of protection according to EN60529.
Energy Label	E
	GEAR
Upon request	- DIMM DALI CLD-D wiring (subcode -0041) - CLD-D (PUSH) (subcode -0045)
	WARRANTY
After sales warranty	5 yr
